

12 September 2016, Petter Åkerblom: The importance of childrens public space

Sweden
is a long country
(1600 km/1000 miles)

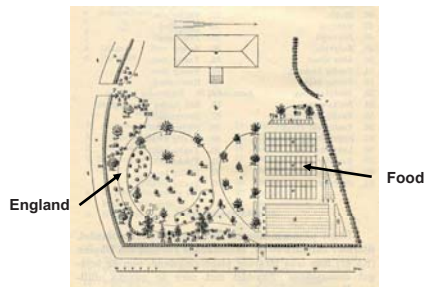

SLU
Swedish University of
Agricultural Sciences
(*Swedens longest university*)

Skolträdgården = skolgården, Skå folkskola, Ekerö, 1901

Skå folkskola, 2003

går på skolgården inför högstuflikonkurrensen.

Arguments & Research

Outcomes from 1 hour physical activities a day in school:
Vammarksolan, Valdemarsvik

Academic:

Reading, language, maths

Psycho-social:

More motivation, less stress,
"we and us", feel good, more present

Physical and mental:

A more elastic brain, more brain cells,
quicker synaps, strength, cardio, body
flexibility

Strategies

The Law:
There must be "enough space
for play and outdoor stay"

- Planning
- Design principles
- Management for better outdoor settings
- Participation

Open space should be ample enough that it is possible to provide varying terrain and vegetation conditions without difficulty or risk of extensive wear and tear.

Local strategies

Methods & Examples
